Security to Exhibit at the National Restaurant Association 2015 Show

April 28, 2015

Security to exhibit at McCormick Place, Chicago, IL from May 16th to 19th, 2015.

Showcasing the Zero Clearance Grease Duct and Secure Stack CIX.

Zero Clearance Grease Duct

Advantages that offer benefits to the specifying engineer, installing contractor, building owner and their insurance company compared to the long established industry standard of rectangular, welded, and carbon steel systems. These advantages include: ease of installation, performance, safety, and factory support, economics.

The Secure Stack CIX

Designed to offer the ultimate in installation convenience and versatility for a variety of applications. Certified for commercial chimney and grease duct applications. The advantages of this system include:

- Thick-gauge material on pipe and coupling - Provides strong, rigid assembly.
- Selfcentering flue design - Simplifies and accelerates installation.
- Coupling configuration - Only requires one locking band and uses less expensive, high-temperature silicone sealant.
